

Yacht Sub-Business Unit Product Stewardship Policy

The Yacht Sub-Business Unit will carry out its activities in a socially and environmentally responsible manner. As a signatory to Coatings Care®, the care and responsibility programme of the Coatings industry, we will implement Product Stewardship throughout the sub-business unit and through its objectives to endeavour to protect employees, customers, the public and environment by:

Making protection of health, safety and the environment an early and integral part of our product development process.

Providing high quality and relevant information on the safe use and disposal of our products.

Being responsive to the concerns of the community, customers, employees and other stakeholders.

Complying with all legal requirements affecting our operations and our products in the countries in which we do business.

Actively participating with industry associations in the development of equitable and attainable standards throughout the world.

Product Stewardship shall be co-ordinated at the Business Unit level and progress within the Yacht Business Unit reported at each meeting of the Business Unit Executive.

Neil Plowman, Yacht sBU Manager
